

## Subgroup Small Combustion Installations (SCI) under EGTEI

### Provisional Agenda of the 1st Meeting (revised)

Date: February 3, 2010

Place: Walchetur (Cantonal Administration Building), meeting room WT 265 (2<sup>nd</sup> floor)  
Walcheplatz 2  
8001 Zurich

#### Topics

09.30 – 10.00	Arrival of participants Coffee, tea	
10.00 – 10.15	1. Opening of the meeting - Mandate of the subgroup, objectives of the meeting - Introduction of participants - Approval of agenda	Richard Ballaman / Gaston Theis (FOEN, Bern)
10.15 – 10.30	Progress made with the revision of the Gothenburg protocol – outcomes of the 27 <sup>th</sup> CLRTAP Executive Body meeting	Jean-Guy Bartaire (Co-Chair EGTEI)
10.30 – 11.45	2. Technical Briefing on biomass combustion  - overview on BAT and PM emission levels of biomass combustion, incl. consideration on black carbon - influence of particle sampling method - costs of PM removal in SCIs - relevance of quality management (planning and operation) and biomass fuel specification - update on add-on technology for domestic appliances	Thomas Nussbaumer (Verenum, Zurich)
11.45 – 12.00	3. BAT, emission levels and options for ELVs for combustion installations 1 – 50 MW (chap. 7.2 guidance doc.)	Michael Hiete (DFIU, Karlsruhe)
12.00 – 12.15	4. Quantification of PM emissions from small combustion plants in Ireland	Stephen Morrin (University College, Dublin)
12.15 - 12.30	5. Determination of emission factors for small combustion plants	Francesca Hugony (Combustion & Env. Laboratory, Milano)
12.30 – 14.00	Lunch break	
14.00 – 14.15	6. EU Eco-Design Directive: upcoming regulations for SCIs	Anja Behnke (UBA, Dessau)
14.15 – 14.30	7. Synopsis of selected national regulations concerning PM emissions from SCIs  Details: <a href="http://www.citepa.org/forums/egtei/egtei_meetings.htm#Steeringgroup16">www.citepa.org/forums/egtei/egtei_meetings.htm#Steeringgroup16</a>	Gaston Theis / Kristina Saarinen (Fin. Env. Institute)
14.30 – 16.00	8. Discussion on options for PM ELVs for SCIs under the revised Gothenburg protocol, including:  - types and categories of SCIs to be considered - types of fuels to be considered (biomass, coal, other?) - types of regulations to be considered	all
16.00 – 16.15	9. Work program: task assignments and time schedule, next meeting(s)	Gaston Theis
16.15 – 16.30	10 .Other business	All
16.30	Closure of the meeting
